EDUCATION

Daffodil International University — Dhaka, Bangladesh

Bachelor of Science in Software Engineering

Expected Graduation: December 2027

Current Semester: 7th | **CGPA:** 3.91, 3.96, 3.95, 3.79, 4.00, 3.77 (1st–6th Semesters)

Relevant Courses: Software Requirement Specifications & Analysis, Software Development Capstone Project, OOP with Java, Data Structures, Database Systems, Algorithm Design

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, C, C++, Java

Frontend: React.js, TanStack Query (React Query), Zustand, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL (Hands-on experience with advanced CRUD and schema design)

Tools & Platforms: Git, GitHub, Render, Netlify, VS Code, Postman

Other: Solved 50+ programming problems on various platforms.

PROJECTS

Quick-GPT – AI Powered Chat & Image Generation App (MERN Stack)

- Built a production-ready monorepo using TanStack Query for caching and optimistic server-state updates.
- Integrated Gemini AI for real-time interactions with robust chat history persistence using MongoDB and Mongoose.
- Implemented JWT auth with Access/Refresh Token rotation, HttpOnly cookies, email verification, and Passport.js.

GitHub: [View Repository](#)

Live Demo: [Visit Website](#)

Shopper – Modern Mid-Scale E-Commerce Platform (PERN Stack)

- Engineered a full-stack monorepo with an infinite self-referencing hierarchical category tree and a multi-attribute variant matrix using PostgreSQL and Express.
- Implemented ACID-compliant transactional order orchestration via pg-pool (BEGIN/COMMIT/ROLLBACK) and atomic database queries to prevent stock race-conditions.
- Optimized data fetching with TanStack Query for cache management and Zustand for client-side persistence.
- Implemented auto-generated SKU/SEO slugs and automated Cloudinary asset cleanup.

GitHub: [View Repository](#) | **Live Demo:** [Visit Website](#)

Full-Stack Authentication System (Node.js + Express + MySQL)

- Production-ready REST API with JWT access/refresh tokens in HttpOnly cookies
- Email verification, password reset, role-based access (admin/user), admin panel (ban/unban/delete)
- Secure: bcrypt, express-validator, proper error handling

GitHub: [View Repository](#)

EXPERIENCE

Actively seeking a challenging role to apply my skills in Full-Stack / Backend (Node.js) / Frontend (React) development. Open to junior roles, internships, remote jobs, and collaborative production-level projects.

PROFESSIONAL SUMMARY

A passionate and self-driven Full-Stack Developer with a strong academic foundation in Software Engineering and extensive hands-on experience building secured scalable web applications (MERN, SQL). Expert in modern state management tools and server integrations, eager to contribute to collaborative teams and solve complex engineering problems.

LANGUAGES

Bengali – Native

English – Professional Working Proficiency

Hindi & Urdu – Conversational
